OPERATIONS PRODUCTION

During the year, the production at Unit : Erode was 1 18 378 tonnes, (1 18 197 tonnes in 2013-14). Production was constrained due to restrictions imposed on Grid Power drawal by the State Government especially when Annual Shuts were taken upon our Power Plants. Unit : Erode also produced 20 138 tonnes of Wet Lap Pulp during the year to meet, in part, the pulp requirements of Unit: Tirunelveli.

Unit: Tirunelveli produced 59 526 tonnes of paper (60 075 tonnes in 2013-14). Production was affected by frequent power outages in the Grid System as well as inadequate receipt of orders, following subdued market conditions.

Overall production of paper of the Company was 1 77 904 tonnes (1 78 272 tonnes in 2013-14), marginally lower than the previous year.

SALES

Sales in Unit: Erode during the year was 1 17 806 tonnes. While the entire paper produced was sold and “Zero Stock” achieved at the end of the year, 406 tonnes of Notebook and 174 tonnes of paper procured for Trading remained in stock as on March 31, 2015.

Unit: Tirunelveli sold 59 309 tonnes of paper, achieving “Zero Stock” at the end of the year. Only 211 tonnes of Notebook, produced during the year remained in stock as on March 31, 2015.

Overall sale of paper (including sales under Trading activity) during the year was 1 77 150 tonnes, compared to 1 77 917 tonnes sold during the previous year.

PROFITABILITY

The Revenue from Operations of the Company for the year was ₹ 1 01 996 lakhs, as against ₹ 1 01 613 lakhs, in the previous year,

The Profit before interest, depreciation, exceptional item and tax was ₹ 9 513 lakhs, for the Company as a whole, compared to ₹ 12 892 lakhs, in the previous year.

After absorbing interest and depreciation of ₹ 3 721 lakhs and ₹ 2 929 lakhs, respectively and charging of exceptional item of ₹ 322 lakhs, the Profit before tax was ₹ 2 541 lakhs, as compared to ₹ 4 124 lakhs, in the previous year.

Overall Profit before tax for the year registered a steep fall due to extremely unfavourable market conditions that prevailed throughout the year when cost increases could not be passed on to the customers and discounts had to be offered to push-up sales. Necessity to purchase expensive ‘market power’, to maintain production when the Captive Power Plant was taken ‘off stream’ for retrofit, also contributed to the erosion in profits.

The profitability could have suffered much more but for the new rates of depreciation that have come into force effective April 2014 under Schedule II to the Companies Act, 2013.

Consequently, the depreciation charge for the year was lower by ₹ 1 968 lakhs. Based on Schedule II to the Companies Act, 2013, useful life of assets have been revised with effect from April 01, 2014. The carrying amounts of assets whose remaining useful life is zero as on April 01, 2014, have been charged to Statement of Profit and Loss under Exceptional Items which amounted to ₹ 322 lakhs.

Due to substantial carried forward unabsorbed depreciation available on account of amalgamation of SPB Papers Limited, the Company was liable only to Minimum Alternate Tax (MAT). As the tax liability under the Regular Method is nil, the entire MAT is eligible to be carried forward as MAT Credit Entitlement for set off in future years. Consequently, the Current Tax liability for the year is Nil. Due to revision of income tax assessments of earlier years, there was a reversal of MAT Credit Entitlement of earlier years, amounting to ₹241 lakhs which has been adjusted against the Surplus in Statement of Profit and Loss under Reserves and Surplus.

As per the Accounting Standard (AS) 22 of The Companies (Accounting Standards) Rules, 2006, a sum of ₹ 806 lakhs has been transferred to Deferred Tax to the debit of the Statement of Profit and Loss, as against transfer of ₹ 1 445 lakhs in the previous year.

In the result, Profit after tax for the year was ₹ 1 735 lakhs, as compared to ₹ 2 679 lakhs, in the previous year.

FINANCE

Instalments of Term Loans and interest dues on Term Loans and Working Capital borrowings were paid on or before the respective due dates.

INTEREST FREE SALES TAX DEFERRAL LOAN

The Company repaid ₹ 680 lakhs during the year and the balance outstanding as on March 31, 2015 was ₹ 3 563 lakhs.

MARKET CONDITIONS

Paper Market conditions were at the lowest ebb throughout the year under review. Lack of demand growth arising out of weak economic conditions that prevailed during the year, unabsorbed excess capacity present in the paper industry, weak demand in overseas markets restricting the export potential and undue competition from imported grades of paper taking advantage of the “zero” import duty concession available under the Regional Free Trade Agreements vitiated the sentiments, offtake and prices of domestic products. Consequently inventories piled up forcing the manufacturers to drop prices, resulting in huge pressure on margins. Sentiments have not changed in April and May 2015 and the market is likely to remain weak and subdued for most part of the year.

EXPORT PERFORMANCE

The Unit : Erode exported 12 329 tonnes during the year, as compared to 13 388 tonnes, exported during 2013-14. The export proceeds amounted to US \$ 10 331 873. In Rupee terms, the value of exports amounted to ₹ 6 569 lakhs as compared to ₹ 7 046 lakhs, during the previous year.

Besides the above, the Unit : Erode also sold 609 tonnes, under deemed exports whose proceeds amounted to ₹ 343 lakhs.

The Unit : Tirunelveli exported 12 464 tonnes of Paper during the year, as against 10 404 tonnes, exported during the previous year. The export proceeds amounted to US\$ 9 834 277. In Rupee terms, the value of exports amounted to ₹ 6 222 lakhs, as against ₹ 5 184 lakhs in the previous year.

Besides the above, the Unit : Tirunelveli also sold 215 tonnes, under deemed exports whose proceeds amounted to ₹ 113 lakhs.

The total exports, including Deemed Exports, accounted for 14.40% of total Production for the year.

TREE FARMING ACTIVITY

The Company continues to provide quality Clonal Seedlings of Eucalyptus, as well as Casuarina, at subsidised rates, to interested farmers and assist them with technical help to achieve higher yields.

Technical support for this initiative is provided by the Department of Tree Breeding of Forest College and Research Institute, Mettupalayam, attached to Tamilnadu Agricultural University, Coimbatore, through a Collaborative Research Project. Last year, farmers owning 19 098 acres were benefited by such support.

The Company's vision is to ensure that more trees are grown than what the Company needs for maintaining capacity pulp production, thus ensuring Greening of the State. Accordingly the company will continue to help farmers in planting at least 18000 - 20000 acres of land in the state, year after year. This massive tree farming initiative, is helping the Company to achieve 'Wood Positive' status.

ISO 9001 / ISO 14001 ACCREDITATION

Company's Quality Management Systems continue to be covered by the "ISO 9001" accreditation. Company's Environmental Management System, continues to enjoy "ISO 14001", accreditation.

OHSAS 18001 CERTIFICATION

The Company continues to enjoy certification under Occupational Health and Safety Assessment Series 18001 (OHSAS) which is an international standard that facilitates management of Occupational Health and Safety risks associated with the business of the organisation.

the wood, wood fibre and pulp purchased by it are traceable to responsibly managed forests and that adequate document controls are in place to ensure identification and traceability throughout the Chain of Custody. This also means that the Company is capable of manufacturing and selling FSC Mix Products in the domestic and international markets

REPORT ON MANAGEMENT'S DISCUSSION AND ANALYSIS

(i) Industry Structure and Developments

Global :

Paper Industry, occupies a prestigious position, among the various manufacturing enterprises globally, in view of its significant contribution to the society. Role of paper in promotion of literacy, propagation of information and knowledge, packaging commodities and commercial items of value, makes it an indispensable product. Its hygiene products offer unique solutions to society's needs.

Despite predictions that the digital revolution would make paper obsolete, paper remains central to our lives. Paper is interwoven with human life in innumerable ways. Think of the hundreds of times, we touch paper, in a day. Paper is a bio-degradable product with a benign footprint at the end of its life cycle and this adds further strength to this product, promoting its growing usage.

Paper Industry is also a significant player in the World Economy. Its annual revenue exceeds US \$ 500 billions. World consumption of paper and paper boards grew from 169 million tonnes in 1981 to 253 million tones in 1993 and to 352 million tonnes in 2005. Current consumption is of the order of 400 million tonnes. Roughly half of this consumption is by North America and Europe. This has been declining since 2006 while steeply rising in China and other Asian Economies. About half of the paper produced each year is recycled. (200 million tonnes in 2012).

Demand, though flat, currently, due to subdued economic conditions globally is projected to grow by about 2% / 3% per annum. While mature markets, may see a declining market in printing and writing sector, positive growth in packaging and hygiene grades is forecast.

Emerging markets are expected to grow at a CAGR of 4-5%. India is expected to post strongest growth of 6% - 7% per annum in the

coming years. China and Russia are also expected to register significant growth rates.

The four key Paper and Board categories are: Newsprint, Coated/Uncoated Woodfree Papers, Tissue Papers and Papers and Boards for packaging applications. Growth rate will vary by grade. Tissue, container board and carton board are expected to witness higher growth rates.

As per European Environmental Paper Network (EEPN), Paper Industry should enable a clean, healthy just and sustainable future for all life on Earth. EEPN's vision encompasses 7 principles; namely: Reduce global paper consumption and promote fair access to paper, maximize recycled paper content, ensure social responsibility, source fibre responsibly, reduce green house gas emissions, ensure clean products and ensure transparency and integrity.

China is the largest producer and consumer of paper, producing and using more than 100 million tonnes of paper and board annually. It is the biggest importer of recovered paper and producer of recycled paper. The Chinese Environment Paper Network (CEPN) has flagged its major concerns like, Pollution of water from untreated mill effluent, unsustainable sourcing of fibre for Mills, imports of pulp from countries causing deforestation, insufficient levels of wastepaper recovery and wasteful use of paper.

The Asian Printing and Writing Paper Market experienced a disappointing year in 2013 as both demand and producers margins were weak due to gloomy global economies and overcapacity issues. Such trend persisted in 2014 as well.

The Global Pulp and Paper Industry has contracted in the mature markets primarily in the printing and writing sector due to transition to digital media and paperless communication across developed economies. However, manufacturing booms in many emerging markets have partially offset the decline by driving increased demand for paper in packaging applications. As a whole, the industry is expected to shift its focus towards packaging and sanitary

products. Growth in developing markets is expected to outpace revenue increases in USA and Europe. The theme of sustainability dominates any discussion on the future of Pulp and Paper Industry. Companies strive hard to sustain their green initiatives to reduce the carbon footprint across their businesses.

Domestic :

India's production in the year 2013-14 stood at 11.38 million tonnes while the installed capacity is about 12.75 million tonnes. This enabled India to maintain its position as the 11th largest producer of paper in the world. However, the Indian Paper Industry accounted for a meagre 3% of global paper demand. The per-capita consumption amounted to about 11 kgs which is significantly lower than the world average of around 58 kgs. India's per capita consumption is also lower than China's (65 kg), Indonesia's (22 kg), Malaysia's (25 kg), and of course USA's (312 kg) consumption levels. This indicates the ample scope available for expansion of the Indian Paper Industry.

While the market size and per capita consumption are relatively low, they have exhibited a rising trend over past several years, from 7.3 kg in 2008 to 11 kg in 2013. As per ICRA, the total paper consumption has grown at a CAGR of around 6% over last decade with none of the last ten years showing a decline in consumption demand. The long-term demand outlook for the Indian paper industry remains favorable driven by increasing literacy levels, growth in print media (particularly in the vernacular languages), higher government spending on education sector, changing urban lifestyles as well as economic growth. Given that these factors are likely to be sustained, the paper industry is likely to continue growing at a rate of 6-8% in the medium to long term although there may be aberrant years given the cyclical nature of the industry.

The Industry faced considerable challenges in 2014-15, resulting in building up of inventory and huge erosion in manufacturers' margins. Poor growth in demand, consequent on a sluggish economy, unabsorbed excess capacity

in the Industry, product substitution and competition from imports were largely responsible for the lacklustre performance of the Industry. However, the Industry is projected to grow to reach 22.00 million tonnes of production by 2024-25, driven by the emphasis on education and promotion of literacy by the Government and enhanced demand for packaging grades due to rising retail trade and e-commerce.

The industry, however, is highly fragmented. As per industry sources, there are more than 1000 paper mills in operation in the country. Development Council for Pulp Paper and Allied Industry of Government of India, however, reckons that 759 Mills are in operation producing nearly 11.38 million tonnes of paper, paper board and newsprint.

On the supply side, the industry saw significant capacity additions of 1.6 million tonnes during FY09-FY11 (~15% of domestic paper capacity in FY09) particularly in the PWP segment. The bunching of these capacities resulted in over-supply scenario during FY11 and FY12 as these incremental capacities could not be absorbed in the market. As a result, most players saw significant built-up of inventories as well as pricing pressures from FY12 onwards. But with steady growth in demand, the market has now started absorbing these incremental supplies.

According to Poyry, India will witness highest annual growth of about 6.5% per annum while China's growth is projected to be in the order of 5.25%. Japan in the near term, North America may witness marginal or negative growth. Amongst the various grades, Container Boards, Tissue Paper, followed by Carton Boards will witness higher rates of growth, while growth rate of Coated / Uncoated wood-free Paper is expected to be under 2%.

(ii) Opportunities and Threats

The competitive strengths and the opportunities that are available to the Indian Paper Industry are:

- ◇ its large and growing domestic paper market and potential for export.

- ◇ fast growing contemporary printing sector.
- ◇ Government's thrust for improving education and literacy in the Country qualified technical manpower with capability to manage world scale pulp and paper mills
- ◇ well established Research and Development (R & D) facilities / activities encouraging innovation.
- ◇ potential for growth of forest plantations.

While so, the following competitive weaknesses and threats confront the Industry:

- ◇ inadequate availability of virgin fibre resulting in high cost of raw materials, including wood, non-wood and waste paper.
- ◇ delay in creation of sustainable raw material base through industrial plantations
- ◇ environmental problems of most of the small pulp mills and also some large mills.
- ◇ high energy consumption and costs
- ◇ poor infrastructure
- ◇ likely closures, owing to increasingly stringent environmental regulations.
- ◇ numerous Regional Trade Agreements (RTAs) / Free Trade Agreements (FTAs) without adequate safeguards.
- ◇ increasing competition from electronic media and digital communication alternatives.

Paper Industry is capital intensive and yields poor returns on investments. The issues that require the urgent attention of the Government are, creation of robust raw material base, fiscal incentive for assimilation of eco-friendly technologies, etc.

International Competitiveness is the key issue that is confronting the Indian Paper Industry, today especially in the context of Government's resolve to bring down import tariff every year and RTAs/ FTAs proposed to be

entered into with ASEAN / SAARC countries, including China.

The major players, alive to the emerging international threats, have been aggressively pursuing quality improvement programmes, coupled with cost rationalisation and capacity additions. Increasingly, more up-to-date technologies are sought to be implemented, with added focus on environmental compliance.

(iii) Segment-wise or Product-wise performance

The Company is a single product Company and hence segment-wise or product-wise performance is not provided.

(iv) Risks and Concerns

- ◇ While there has been some improvement in the availability of wood from within the State, unprecedented shortage of wood felt in the neighbouring State of Andhra Pradesh in 2013-14, which has been the primary sourcing point for the Andhra based mills and few upcountry Mills had forced these mills to turn to Tamil Nadu for meeting, at least a part, of their shortfall. This has seriously affected the availability and cost of wood for the Tamil Nadu based mills.
- ◇ With this mismatch of supply and demand, price of casuarina wood has skyrocketed by over 60% in the last 2 years, causing serious erosion in the profitability of operations. If this trend is to continue, the Company may have to resort to import of wood logs/chips at higher prices, to sustain production.
- ◇ The Company has taken steps to step-up production of clonal seedlings and bare-rooted seedlings by the Company's nursery as well as by the Company sponsored nurseries, to support planting of Casuarina and Eucalyptus in about 8000 ha by small and marginal farmers in Tamil Nadu.

- ◇ Continuous failure of monsoons resulting in scanty rainfall in the State of Tamil Nadu, has affected substantially planting of sugarcane. This has brought down, significantly the 'crushing' performance of sugar mills in the State, including by our Group Company, Ponni Sugars. Bagasse availability, consequently, has been significantly affected, at a time when severe shortage of wood is felt by the Company. Price of Bagasse from the cooperative and private Sugar Mills in Tamil Nadu who have surplus Bagasse, has shot up significantly.
- ◇ Failure of Monsoon and absence of water flow in the River Cauvery, from where the Company draws its water requirements, had created anxious moments to the Company in the past. Such contingencies can recur in the future also. Further, inter-state sharing of River Cauvery water has become a political / legal issue in recent times. The Company has, however, taken all steps to curtail quantum of water used in the process.
- ◇ The Company depends entirely on imported coal for operating its Captive Power Plant. The price of imported coal witnessed an unprecedented increase of more than 100% during 2007-08. Prices which softened from second half of 2008-09 are stable at the moment. Future profitability of the Company will be impacted substantially by price increases as well as by weakening of Indian Rupee.
- ◇ Undue haste in reducing tariffs, for imports from countries covered by Government of India's RTAs / FTAs, will likewise expose the Industry to inexpensive imports from low cost producers of paper.
- ◇ Spurt in interest rates, effected to contain inflation, will impact the cost of future Projects and operating margins.
- ◇ Undue fluctuation in the exchange rate between Indian Rupee and US Dollar will impact the margins of the Company.
- ◇ Rise in rate of inflation will impact the profitability of the Company, since there will be increase in prices of all inputs and cost of services, without matching increase in price for the Company's products.

(v) Outlook for 2015-16

Global:

Global growth of Economy is forecast at 3.8% in 2015-16 by IMF, an improvement over 2014-15 when the growth was lower at 3.5%. Year 2014-15 witnessed a pickup in growth in advanced economies relative to the previous year and a slow-down in emerging market and developing economies. Growth is projected to be stronger in 2015 relative to 2014 in advanced economies, but weaker in emerging markets. Current year, may thus witness uneven growth patterns across the world economy. Global Pulp and Paper Industry is likely to mirror the above trend in the current year. Sustainability is a top priority among the world's forest, paper and packaging Companies.

A recent global survey conducted by PWC reported that nearly two thirds of Pulp and Paper Industry CEOs are concerned about resource scarcity and climate change. An overwhelming 92% of the CEOs surveyed, said, it is important to measure and try to reduce their environmental footprint. Paper Industry CEOs are of the view that economy will pickup this year and hence are positive about boosting revenues. They are looking to China, US and Germany to generate much of this growth according to PWC.

As per Moody's report on outlook for Global Paper and Forest Products, industry is stable and expects industry's global operating income to increase by 2% - 4% over the next 12 months.

North American Wood Products Producers will benefit as US housing starts improving and the projected improvement in global economy will help drive demand for packaging. These

factors will help mitigate the secular decline of printing and writing paper consumption in mature markets which will contract as consumers switch to digital alternatives.

According to Economist Intelligence Unit, Real GDP of China expanded by 7% on year on year basis in Q1, but the weak momentum behind economy suggests that fresh stimulus measures will be forthcoming.

Chinese Paper and Board production in 2013 contracted to 101.1 million tonnes from the high of 102.6 million tonnes in 2012, as per Industry sources, which appears not reliable.

Chinese 'capacity creation' is far in excess of actual demand growth for paper indicating that the capacity utilisation may take some years to reach 90% plus levels.

Domestic:

India Ratings and Research (a Fitch Group Company) in its Outlook Report on domestic Paper Industry has maintained its outlook on the paper industry at "negative to stable" driven by a weaker-than-expected improvement in the demand supply environment and elevated input costs. Ind-Ra has also maintained a stable outlook on most of its rated paper Companies. Financial profile of rated entities has not improved up to Ind-Ra's expectations in FY15. However, with the completion of the capex cycle and a gradual absorption of the excess capacity, Ind-Ra expects credit profiles of companies to improve in FY16.

Paper Companies have seen inventory levels rise in FY14 and 1HFY15 which could be attributed to weaker domestic demand, addition of new paper-production capacity as well as pressures due to import. Ind-Ra expects that this would lead to short term pressures on pricing which had seen some stability in FY14. However, the pricing environment is likely to improve marginally in 2HFY16 with improvement in demand-supply dynamics in the absence of large capacity addition and a gradual increase in demand.

Ind-Ra expects overall sector demand to grow by 6%-8% in FY16 aided by a recovery in the overall economic environment in FY16 (GDP

to grow by 6.5%). However, certain segments such as copier paper, specialty paper, paper board, could witness double digit growth driven by higher demand for office supplies and stronger growth in consumer-oriented sectors such as FMCG.

Ind-Ra expects sector companies to continue to witness elevated cost pressures in FY16. Paper companies have continued to suffer from rising input costs particularly in domestic wood prices and an inability to pass on the same to customers due to the weak demand environment.

Ind-Ra expects farm forestry efforts by companies would result in increased domestic wood availability in the medium term. In addition, Rupee depreciation has increased the cost of import for chemicals, pulp etc. Import of wood chips by companies and lower international pulp prices are likely to put a cap on the domestic wood prices, but unlikely to relieve the cost pressures on the Companies.

Ind-Ra expects the credit profiles of paper companies to improve in FY16. The financial profiles of these companies deteriorated on account of the large capex programmes undertaken by them, coupled with pressure on operating profitability. However, with the completion of the capex, these companies are likely to focus on improving their balance sheets. An improvement in the interest rate environment in FY16 is also likely to benefit the sector Companies.

Ind-Ra expects the rupee to stabilise at around INR63/USD by FYE16 which should help the sector Companies withstand competitive pressures from import to an extent. However, after a decline in sector import in FY13, overall imports have increased in FY14 & 1HFY15. A muted demand environment globally could result in paper Companies in Asia, particularly China, exporting surplus capacity to India which could intensify the competitive pressures on the domestic paper industry.

As mentioned in the last year's report, the environmental footprint of the Indian Paper Industry has come under the critical scrutiny of several (public and private) Indian and overseas

environmental agencies who would like to transform the way pulp and paper industry operates.

These transformations include minimising paper consumption, maximising use of recycled paper in the furnish, sourcing of virgin fibre, and adoption of cleaner pulping processes in the manufacture of paper.

Some Indian Paper Manufacturers will have to turn to environmentally friendly manufacturing processes and become responsible paper manufacturers. With a view to curtail the carbon emission, Government of India, have introduced the PAT (Perform, Achieve and Trade) Scheme, calling for significant reduction in energy usage by the Pulp and Paper Units in a specified time frame. Further, REC (Renewable Energy Certificate) scheme requires the Indian Paper Industry to use a minimum percentage of bio-fuel in the fuel-mix.

These schemes, though appearing to be threats, provide great opportunities for the Paper Industry to significantly improve its carbon footprint and simultaneously augment their income through higher usage of Bio-fuels.

(vi) Internal control systems and their adequacy

- ◇ The Company maintains all its records in ERP system developed in-house and the work flow and majority of approvals are routed through this system.
- ◇ The Company has laid down adequate systems and well drawn procedures for ensuring internal financial controls. It has appointed an external audit firm as Internal Auditors for periodically checking and monitoring the internal control measures.
- ◇ Internal Auditors are present at the Audit Committee Meetings where Internal Audit Reports are discussed alongside of management comments and the final observation of the Internal Auditor.
- ◇ The Board of Directors have adopted various policies, like Related Party

Transactions Policy and Whistle Blower Policy and put in place budgetary control and monitoring measures for ensuring the orderly and efficient conduct of the business of the Company, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information.

(vii) Discussion on financial performance with respect to operational performance

During the year, the Company produced 1 77 904 tonnes of paper, comprising Production of 1 18 378 tonnes at Unit : Erode and 59 526 tonnes at Unit: Tirunelveli.

The Unit : Erode also produced 20 138 tonnes of Wet Lap Pulp to augment the Pulp requirements of Unit : Tirunelveli.

The Company sold 1 77 150 tonnes, during the year, comprising sale of 1 17 806 tonnes by Unit : Erode, 59 309 tonnes by Unit : Tirunelveli and 35 tonnes of paper and Notebooks bought and sold under Trading activity.

The Company exported 24 793 tonnes of Paper during the year, comprising of 12 329 tonnes from Unit : Erode and 12 464 tonnes from Unit : Tirunelveli. In US\$ terms the value of exports worked out to US\$ 20 166 150, equivalent to ₹ 12 791 lakhs. Exports to Nepal and Iran amounted to ₹ 811 lakhs.

Besides the above, the Company also sold 824 tonnes, under deemed exports and 117 tonnes under merchant exports whose proceeds amounted to ₹ 518 lakhs.

The Company is accredited with "Star Export House" Status, by the Government of India, Ministry of Commerce, Directorate General of Foreign Trade, in recognition of its export performance.

The Company repaid ₹ 680 lakhs of interest free Sales Tax Deferral loan during the year and the balance outstanding as on March 31, 2015 was ₹ 3 563 lakhs.

During the year, the Company earned a Total Revenue from Operations (net of Excise Duty and Excise Cess) of ₹ 101 996 lakhs.

For the year 2014-15, the Profit before Interest, Depreciation, exceptional item and Tax was ₹ 9 513 lakhs, for the Company as a whole.

After absorbing interest and depreciation of ₹ 3 721 lakhs and ₹ 2 929 lakhs, respectively and charging of exceptional item of ₹ 322 lakhs, the Profit before tax was ₹ 2 541 lakhs, as compared to ₹ 4 124 lakhs, in the previous year.

The overall Profit before tax for the year registered a steep fall due to un-favourable market conditions for major part of the year, steep increase in prices of input materials, especially wood, severe restrictions imposed by State Government on drawal of power from State Grid, leading to purchase of power from market at exorbitant cost, etc. Also one of the Boilers and Turbo Alternator set were taken for overhaul and retrofit.

The profitability could have suffered much more but for the new rates of depreciation that have come into force effective April 2014 under Schedule II to the Companies Act, 2013. Consequently, the depreciation charge for the year was lower by ₹ 1 968 lakhs. Based on Schedule II to the Companies Act, 2013, useful life of assets have been revised with effect from April 01, 2014. The carrying amounts of assets whose remaining useful life is zero as on April 01, 2014, have been charged to Statement of Profit and Loss under Exceptional items which amounted to ₹ 322 lakhs.

Due to availability of substantial carried forward unabsorbed depreciation on account of amalgamation of SPB Papers Limited, the

Company was liable only to Minimum Alternate Tax (MAT). As the tax liability under the Regular Method is nil, the entire MAT is eligible to be carried forward as MAT Credit Entitlement for set off in future years. Consequently, the Current Tax Liability for the year is Nil. The Board on the recommendations of the Nomination-cum-Remuneration Committee meeting held on 25th March 2015 has approved a Nomination and Remuneration Policy. It inter alia deals with the manner of selection of Board of Directors and Managing Director / Executive Directors and their remuneration. This policy is accordingly derived from the said chapter.

1 Criteria for selection of Non Executive Directors

- (a) The Committee will identify and ascertain the integrity, qualification, expertise and experience of the person for appointment as Director.
- (b) Directors would be chosen from diverse fields of expertise drawn from industry, management, finance and other disciplines.
- (c) In case of appointment of Independent Directors, the Committee will satisfy itself with regard to the independent nature of the Directors vis-à-vis the Company, conforming in entirety to the conditions specified under Section 149 of the Companies Act, 2013, read with Schedule IV thereto and the Rules made thereunder and the Listing Agreement.
- (d) The Committee will ensure that the candidate identified for appointment as a Director is not disqualified in any manner under Section 164 of the Companies Act, 2013.
- (e) In the case of re-appointment of Non Independent Directors, the Board will take into consideration the performance evaluation of the Director and his engagement level.

2 Remuneration Policy

The Remuneration Policy aims at attracting and retaining suitable talent and devising a remuneration package commensurate with competition, size of the Company, its nature of business and considered appropriate to

the respective role and responsibilities of the employee concerned.

The Remuneration Policy seeks to ensure that performance is recognised and achievements rewarded. Remuneration package is transparent, fair and simple to administer, besides being legal and tax compliant.

The Policy recognises the inherent constraint in relating remuneration to individual performance and fixing meaningful benchmark for variable pay due to the nature of the industry. Employee compensation is not allowed to get significantly impacted by external adversities that are admittedly beyond their realm of control.

3 Remuneration of Directors and Key Managerial Persons (KMP)

The Nomination-cum-Remuneration Committee recommends the remuneration of Directors and KMPs which is approved by the Board of Directors and where necessary, further approved by the Shareholders through Ordinary or Special Resolution, as applicable. Remuneration comprises of both fixed and variable pay. However, the share of variable pay is so devised as to factor in the volatile changes in profit levels inherent to the nature of industry in which the Company operates. Bearing this in mind, the remuneration package involves a balance between fixed and incentive pay, reflecting short and long term performance objective appropriate to the working of the Company and its goals.

The Chairman, Managing Director and Deputy Managing Director and Secretary are the only Executive Directors entitled for managerial remuneration. Sri N Gopalaratnam, Sri K S Kasi Viswanathan and Sri V Pichai have been re-appointed as Chairman, Managing Director and Deputy Managing Director and Secretary, respectively, for a further tenure of three years from 01 04 2014. Considering the inadequacy of profits for the year 2014-15, they are paid

minimum remuneration, in accordance with the approval granted by the Members at the Annual General Meeting held on 25th July 2014. Their remuneration for the Financial Year 2014-15 is disclosed under Note No. 30 of the Financial Statements. There is no service contract containing provisions of notice period or severance package.

No Director or his relative holds an office or place of profit in the Company. Other than direct or indirect equity holding, sitting fee and commission on net profits, there is no pecuniary relationship or transaction between the Company and its Non Executive Directors. No stock option has been issued by the Company to Executive Directors.

Remuneration to Non Whole-time Directors is paid, with the approval of the Board of Directors and Members of the Company in General Meeting.

Currently, the Non Whole-time Directors are paid the following remuneration:

- ◇ Commission, restricted to a maximum of 1% of the net profits of the Company, computed in the manner laid down in Section 198 of the Companies Act, 2013, for all of them together.
- ◇ The above shall be shared amongst the Non Whole-time Directors equally.
- ◇ The above shall be subject to a further ceiling of ₹ 3 lakhs per financial year, for each Director.
- ◇ In case any Director has held the office of Director only for a part of the financial year, then the remuneration shall be paid only proportionately, in proportion to the period for which he was a Director during that financial year.

Besides the above, the Non Whole-time Directors are paid Sitting Fee for attending the Board / Committee Meetings of the Board of Directors, in accordance with the provisions of Articles of Association of the Company.
