- c. The liberty from time to time during the continuance of this Licensee to enter on the said lands for the purposes of exercising the rights and liberties hereby granted and with the previous permissions in writing of the Executive Engineer, PWD., W.R.D.,

Thamiraparani Basin Division, Tirunelveli for the time being incharge of the said river but not otherwise to open up the pipes and sluices for the purpose of removing, repairing and cleaning the same as occasion may require doing no unnecessary damage to the said lands and restoring the surface at the cost of the licensee whenever opened up as soon as may be.

To hold and enjoy the said rights and liberties hereby granted on to the licensee for the term of (5) Five Years from **13-02-2019 up to 12-02-2024** subject to determination as hereinafter mentioned.

2. The licensee shall and will yield and pay to the Government in advance before the 10th day of April in each year the charges for the full quantity of sub-surface water permitted from 13-02-2019 to 12-02-2024 as per the District Collector, Tirunelveli டி.க.எஸ்.எஸ்/6203/2019 dt. **05.02.2021** and G.O(Ms).No.253, dated 28-09-2018 by the Licensee during the year ending on the 31st day of March at the following rate:

| | |
|-------------------------------------|--|
| For every 1000 (thousand) liters of | Rs. 1.50 (One rupee fifty paise) |
| water to be removed by pipes, | from 13-04-2018 till the revision of the |
| sluices or otherwise | rate |

The Licensee has to pay full royalty charges at the rates fixed by the Government from time to time for the full quantity as permitted by the Government.

If in any year the Licensee shall require any sub-surface water in excess of the quantity paid for in advance and if the Government Agree to supply such excess sub-surface water the Licensee shall and will also yield and pay to the Government, the charges at the rate as may be fixed by the Government for the respective period as mentioned above for 1000 litres of subsurface water or part thereof to be removed by pipes or sluices or otherwise. The charges for the excess sub-surface water shall be paid before the excess sub-surface water is actually removed by the Licensee subject to adjustment of accounts when the actual quantities of supply are ascertained.

3. The Licensee covenants with the Governor as follows, namely that the Licensee,
- a) Will pay the said yearly sums herein before the stipulated to be so paid without any deductions and within the periods herein before appointed for payment thereof respectively. Will do all works and things hereby authorized to be done by Licensee upon affecting the said or the said river in a good and workmanlike manner and so as to cause no unnecessary damage or disturbance to the said lands or said river or the bed or banks thereof.

- b) In case such sub-surface water shall be taken by means of pipes or sluices or otherwise except by hands at the Licensee's own cost will, when required to do so by the Superintending Engineer, WRD/PWD, Thamiraparani Basin Circle, Tirunelveli place and maintain at or near to the points of in-take and so as to be opened at all times to the inspection by any officer of the WRD/ PWD, or Revenue Department of the Government of Tamilnadu, efficient meters or gauges approved in all respects by the Executive Engineer which shall correctly measure the quantity of sub-surface water taken from the said infiltration wells through the said pipes or sluices or otherwise as aforesaid in every 24 hours.
- c) Will not take from the said infiltration well in any period of 24 hours measured from midnight to midnight a greater quantity of sub-surface water than as hereinafter mentioned namely 55,000 gallons per hour (2.45 cu secs) and will not take from the said infiltration wells any water in excess of the amount paid for in advance of the current year except with the previous permissions in writing of the Executive Engineer, WRD/PWD., Thamiraparani Basin Division, Tirunelveli to be applied for when the Licensee is about to exhaust the quantity so paid in advance.
- d) Will maintain and keep at the said factory proper books of accounts in which shall be entered daily the quantities of sub -surface water removed from the said infiltration wells under the rights and liberties hereby granted distinguishing such as pipes or sluices or otherwise (except by hand) from such as shall be removed by hand and shall whenever required allow such books to be inspected and the entries therein to be copied by any officer of the WRD/PWD or Revenue Department aforesaid of the Government of Tamilnadu.
- e) Will not discharge or suffer to be discharged into the said river any water of less purity than the water in the said river for the time being any substance or matter (fluid or solid) which shall prejudicially affect the said river or the water therein or render such water in any way unfit for domestic purposes or which shall be or cause a nuisance or annoyance to the Government or to any person.
- f) Will keep the Government indemnified against all actions, claims and demands that may be brought or made against them by reasons of anything done by the Licensee in exercise or in purported exercise of the rights and liberties hereby granted.
- g) Will keep pipes and sluices and other works of the Licensee which shall be laid or constructed on the said lands in good repair.
- h) Will at the expiry of the terms of these presents or sooner determination of the said terms or within thirty days thereafter at the cost of the Licensee remove the said pipes and works and restore the said land or such part thereof as may have been opened, disturbed or damaged by the Licensee to the same or as good a state and condition as they were in immediately before the date hereof.

- i) Will use such sub-surface water for the purposes of the said factory alone and for no other purposes.
- j) Will at all reasonable times allow the officers of the PWD/MWRD., and Revenue Department aforesaid to inspect the said factory and surrounding premises of the Licensee.
4. In case any sum hereby made payable shall be in arrears and unpaid for the space of thirty days after the same shall have become payable or if there shall be any breach or non-observance of any of the covenants on the part of the Licensee other than the covenant for payment of the said sums or the conditions herein contained, then, and in any such case, it shall be lawful for the Government by notice in writing under the hand of the Superintending Engineer served on or posted to the Licensee at this factory address to determine these presents and the licensee hereby granted shall immediately upon such service cease and determine but without prejudice to any claim or right of action or remedy of the Government in respect of any previous breach of any covenant on the part of the Licensee herein contained or in the alternative to cut off the supply of water to the Licensee until such time, as the arrears shall have been paid in full together with the expenses that may be incurred by the Government on account of such cutting off or as the case may be until such time as the breach or non-observance of the covenants on the part of the Licensee shall have been made good by paying to the Government such sum as the Superintending Engineer may fix as compensation for the loss or damage caused to the Government by such breach or non-observance together with the expenses that may be incurred by the Government on account of such cutting off and the Licensee shall not be entitled to the refund of any portion of the said annual sum paid in advance or to claim any damages from Government.
5. The Governor covenants with the licensee that the Licensee paying the said annual sums and performing and observing the covenants and conditions on his part to be performed and observed may peaceably exercise and enjoy the rights and liberties hereby granted during the said terms without any interruption save as herein provided on the part of the Government or any person claiming through, under or in trust for the Government.
6. Provided always and it is hereby agreed and declared as follows:-
 - a) That in case, sub-surface water shall be taken by the Licensee from the said infiltration wells by means of pipe or masonry sluice no portion of such pipe or sluice shall project in to the water way of the said river and that the head of such pipe or sluice shall be built in a small masonry well to be approved by the Executive Engineer, and to be constructed at the cost of the Licensee and that no pump shall be erected on the said lands.

- b) That it shall be lawful for the Executive Engineer at any time on giving one month previous notice in writing and in cases of emergencies as to which the decision of the Executive Engineer shall be final and conclusive without any notice at all to cut of the supply of such water to the said factory for any length of time and in the latter case only such part of the said annual sum as shall exceed the value at the rate herein, before mentioned or the water removed during the year in which the supply shall have been so cut off shall be repaid to the Licensee but the Licensee shall not be entitled to any further or other compensation in respect thereof.
- c) That the Licensee shall not be entitled to the refund of any portion of the said annual sum paid in advance or to claim damages either on the ground that the licensee has not taken the maximum quantity of sub-surface water herein before mentioned or on the ground that the Licensee has not been able to take such maximum quantity owing to deficient sub-surface water in the said infiltration wells consequent on early or sudden closure of the said river for repair or otherwise.
- d) That the Licensee may be exempted by the Superintending Engineer from payment of the said annual sum in respect of any on or more complete years during the terms of the License if he intimated in advance to the Executive Engineer, P.W.D. WRD., Thambaraparani Basin Division, Tirunelveli that he does not propose to take sub-surface water during such year or years.
- e) That in addition to any rights and remedies reserved in to the Government under this agreement and without prejudice thereto the Licensee shall if they fail to comply with any one or more of the provisions of this agreement be liable for and pay to the Government in respect of all water taken by them after such failure, charges at such increased rates as the Superintending Engineer may deem fit and reasonable.

ADDITIONAL CONDITIONS

- 1) The drawal of sub-surface water from the three infiltration wells shall not exceed 55,000 gallons per hour (2.45 cu secs)
- 2) The Licensee shall enter into an agreement with the Government before proceeding with the drawal of subsurface water, without executing agreement, the Licensee should not draw sub-surface water.
- 3) No guarantee for adequate supply of sub-surface water can be given. In times of scarcity, the supply is liable to be reduced or cut off in order to safeguard the interest of both Irrigation and public drinking water arrangements. The Licensee should comply with the decisions and instructions of the Executive Engineer, P.W.D., having Jurisdiction over the river course in this matter.

Executive Engineer has full powers to stop supply without intimation to the Licensee, if the Licensee does not follow the conditions stipulated. The Licensee cannot claim any compensation for such reduction or cutting of supply and shall have their own arrangement of alternative course.

- 4) The Licensee shall use the sub-surface water only for Industrial purposes and for the drinking water supply for the employees of the factory with treatment or without any treatment as the case may be used for any other purpose like Irrigation, it will attract the levy of water cess as being imposed by the Revenue Department as per rules in force. This will be in addition to the fees to be paid to the Government through P.W.D., for the sub-surface water drawn from the infiltration wells as per stipulation of the agreement.
- 5) The arrangements for drawal and construction on the river margin shall be got approved by the Executive Engineer, P.W.D. All such constructions will be at the cost of the Licensee, but to a satisfaction of the P.W.D., officers and constructed only to the approved proposals. The Licensee will not be permitted to carry out any such construction on the river bed which may obstruct its natural flow.
- 6) The Licensee should arrange to utilize the sub-surface water drawn fully and avoid the flow of nay effluent back into the river course. However, if under any extra-ordinary circumstances the effluent is to be returned to the river or any other Government, Private source, it shall be properly treated and rendered innocuous to the satisfaction of the Tamil Nadu Pollution Control Board.
- 7) All arrangements pertaining to drawal of sub-surface water as well as return of effluents and all the constructions pertaining them should be got approved by the PWD officers.
- 8) The Licensee shall furnish to the Tamilnadu Pollution Control Board authorities or any other authority duly constituted by the Government to deal with matter relating to environmental pollution the details of the proposed treatment for effluent and obtain approval thereto before entering into the agreement for drawal of sub-surface water. The construction of plants should confirm to the approved design and capacity.
- 9) The Licensee should produce a set of such approved drawing for the construction of treatment plant to the Executive Engineer, P.W. D., W.R. D, Thamiraparani Basin Division, Tirunelveli -2, and carryout the construction at their cost based on the supervision of the field officers of P.W.D.
- 10) The Licensee shall bear the entire cost of periodical collection of samples of the effluent or samples of water from the source into which the treated effluent is discharged and also the cost of testing these samples at Tamil Nadu Pollution Control Board, Tirunelveli or any other Public Health Laboratories. If the treatment is found not innocuous, the Licensee shall arrange for further treatment of the effluent at their cost as directed by the authorities.

- 11) All test reports certifying the effective treatment of effluent issued by the competent Public Health Laboratory shall be made available to the P.W.D., authorities for inspection on demand.
- 12) Separate electric connection has to be obtained from the Tamilnadu Electricity Board for the head works pumping system and it should not be interlinked at any cost with the main factory electric supply arrangements.
- 13) The Licensee shall install a separate meter / measuring device for the measurement of sub-surface water drawn from the three infiltration wells. Similarly separate meter shall be installed for any sub-surface water returned after use. The officers of P.W.D., shall have free of easy access to inspect these meter / measuring device and the installations.
- 14) The Licensee shall keep spare meter in ready stock. At no time the drawal shall be resorted to without meters or with defective meters. In case sub-surface water is drawn without proper meter / measuring devices Licensee shall pay for quantity drawn each period assessment made by the Executive Engineer, W.R.O., P.W.D., Thamiraparani Division, Tirunelveli - 2, whose assessment will be final and binding on the Licensee.
- 15) For infringement of any of the above conditions and for any unauthorized drawal or excess drawal the authorities will levy penal charges which will be 10 times the normal penalty and in exceptional cases, where the violation is continuous any other gross negligence is noted, it may be charged at a maximum rate of 20 times the normal rates. The discretion in this regard will be left to the authorities concerned whose decision will be final and binding on the Licensee.
- 16) In the case of any further continued violation by the Licensee in the matter of sub-surface water and effective treatment and disposal of effluent even after imposing penalty clause 15 as above the authorities shall have the final option of instructing the Tamilnadu Electricity Board to cut off supply to the Licensee water supply head works system.
- 17) The Licensee shall obtain the permission of the P.W.D., Revenue or any other concerned Government Department for the occupation of Government lands to the extent that becomes inevitable and pay the lease amount, track rent etc. fixed by authorities.
- 18) The Licensee shall pay the charges for sub-surface water drawn for the Industrial Purpose at the rate fixed by the Government from time to time for the full quantity as permitted by the Government. The Licensee shall deposit the amount thus worked out in advance before 10th April every year.

Superintending Engineer, PWD/MRD
Thambraparani Basin Circle

V. SUNDARESAN
Vice President

- 19) The royalty charges are liable to be revised by the Government at any time without any notice to the Licensee and such revised rates shall take effect from the date notified by the Government.
- 20) Having regard to any Public Irrigation demands arising at any later stage the Government reserves the right to revoke the permission now granted at any time without notice and without any liability for the payment of compensation.
- 21) For the serious violation of any of the above condition in addition to the cutting off electric supply to sub-surface water supply arrangement as per condition 16 the permit issued to the Licensee for sub-surface water drawal is likely to be cancelled.
- 22) The Permission given will be valid for the period of 5 years from 13-02-2014 to 12-02-2019 subject to renewal by the Government at its discretion. The supply of sub-surface water will be stopped on the expiry of the agreement, if the agreement is not renewed in time. Renewal lies with the responsibility of the Licensee.
- 23) Penal interest will be levied at 1% per month up to six months and at the rate of 1.5% per month beyond six months for nonpayment of advance charges, sub-surface water charges or for belated payment.
- 24) The off take arrangements to be used by the Licensee should be got approved by the controlling officer before commissioning. The off take arrangement so approved shall be used exclusively for the drawal of sub-surface water permitted herein and should not be used for any other purposes.
- 25) All sum due to the Government from the Licensee shall be recovered from them as if they are in arrears of Land Revenue.
- 26) No supply should be drawn from the proposed well when the supply in the river is at any time less than 20 cfs and for stopping supply under this clause, the Executive Engineer, W.R.D., P.W.D., Thambaraparani Basin Division, Tirunelveli shall give a week's notice to the Licensee.
- 27) Licensee has to inform the Executive Engineer, PWD,WRD., Thambaraparani Basin Division, Tirunelveli about the status of Writ Petition (WP(MD)No.22015 of 2018) filed in the Hon'ble Madras High Court of Madurai Bench by Mr. Murugan.
- 28) In order to ensure the pipe line route "laid only on Government Porampokku" the Licensee has to preserve and produce relevant pipe line track details along with track rent paid to the Government, to the Executive Engineer, PWD., WRD., Thambaraparani Basin Division, Tirunelveli.
